ARE BEATEN BY MINERS

VINCENNES, IND., IS THE SCENE
OF A RIOTOUS DEMON-
STRATION.

PROBABLY FATAL TO TWO

Non-Union Men Set Upon by March-
ers—Mine Foreman and His Family
Roughly Handled—Union Men Say
They Will Force the Colliery to
Unionize or Close Up—Another Raid
Is Expected.

Vincennes, Ind., Nov. 20.—Four hun-
dred union coal miners from Washing-
ton, Cannelburg, Petersburg, Prince-
ton and Montgomery arrived here at
an early hour and at 5 o'clock made an
attack upon the non-union miners em-
ployed at the Prospect Hill mines,
near this city. As a result two men
are fatally hurt and a half dozen more
are seriously injured. The union
miners formed at the Union station
and marched to the mines. Just as
the men of the day shift were going
on duty they were attacked and re-
ceived horrible punishment. The
union men asked for the foreman,
William Scott, and when told that he
was in bed said: "All right, we will
get him," and started after him. In
the melee that followed Scott and his
family defended themselves as best
they could, but were powerless.

Scott was badly beaten about the
head and face, and W. P. Collins, an
attorney of Washington, a brother-in-
law of Scott, sustained injuries that
may prove fatal. He had a rib broken
and an eye badly injured. Henry
Hannery, a miner, was so badly beaten
by the men that he had to be removed
to the city, where he could be given
medical attention, and his injuries are
such that he may die. Mrs. Scott was
slapped in the face and when she re-
sented the attack, it is alleged that
one of the men drew a gun and told
he he

Would Make Short Work of Her
if she persisted in her foolishness.
Otis Scott, the 15-year-old son, was
knocked down, as was also the 10-

year-old daughter of Scott.
Others that suffered at the visitors'
hands were Robert McDaniels, John
Scott and Kenner Mars. All are badly
bruised about the head and face. It
is said there that no word was spoken
to Scott until the fight began. In the
fight the stove was knocked over and
a big hole was burned in the floor.
Some of the miners, however, picked
up the stove and extinguished the fire.
The house was badly damaged. Al-
most every window was broken and
one of the doors was battered down.
Only 40 men are employed and the
mine is run on the co-operative plan
and independently. The operators
claim that they cannot pay the union
scale and run but say they pay the
highest price possible, and in some
instances pay more than scale prices.
They claim to mine from 50 to 60 tons
a day, and thereby are able to give
a few men employment. There is
great confusion over the attack and
another raid is expected. The union
miners say they will force the mine
to unionize or close up, but one of the
two must be done. Further trouble
is anticipated.

Jules Siegfried Warns Frenchmen Re-
garding American Supremacy.

Paris, Nov. 20.—M. Jules Siegfried
lectured at the Musee Social on his
recent tour in America, repeating in
extended form the opinions already
expressed in the interview cabled to
the Associated Press last July.

He predicted that the present cen-
tury would see the United States the
greatest and most powerful commer-
cial and industrial nation in the world.
"If France is wise," he said, "she will
not delay to take advantage of Amer-
ica's traditional friendship in order to
secure the means by a give and take
policy, to get a fair share of this vast,
unlimited and ever increasing field of
commercial enterprise, beyond the At-
lantic."

Campbell-Bannerman Criticized.

London, Nov. 20.—Sir Henry Camp-
bell-Bannerman is the subject of much
severe comment for having declared in
a speech at Plymouth that he de-
spaired of overcoming the peril now
facing the country in South Africa, so
long as Mr. Chamberlain and Lord
Milner retained their present offices.

Does Not Want to Be Governor.

Guthrie, O. T., Nov. 20.—Horace
Speed, United States attorney for
Oklahoma, has been tendered the gov-
ernorship of Oklahoma by the presi-
dent and Secretary Hitchcock. Re-
ferring to the matter he said: "It is
an office I do not want, and one I will
not have unless they insist upon it."

ENTHUSIASTIC MEETINGS.

The Anti-Chamberlain Movement is Spreading in Germany.

Berlin, Nov. 20.—The anti-Chamberlain movement in Germany is spreading. In spite of the remonstrance issued officially by the Deutscher Kriegerbund, the Society of Veterans of Berlin held a large and enthusiastic meeting of this kind in which the utterances of Mr. Chamberlain at Edinburgh were heartily denounced. Other soldiers' anti-Chamberlain meetings are to be held at Cologne, Mulheim, Brunswick, Bonn, Celle, etc., and students' meetings of a like character will be held at Bremen, Wurzburg, Leipzig, Halle and Munich, while popular meetings are announced in Beecham and Brunswick and other places.

Referring to these matters, The Post, speaking semi-officially, says the government sees no reason to identify itself with the vehement utterances at irresponsible meetings, or to take action against Mr. Chamberlain's accusations concerning the German soldiers, since the latter's words at Edinburgh were nothing more than the private statement of the British statesman.

But if the matter is broached in the reichstag, The Post continues, matters will assume an entirely different course.

In this event the government would find occasion to express itself belittlingly.

ROGERS IS NONCOMMITTAL.

Washington's Governor Refuses to Discuss Extra Session Question.

Seattle, Wash., Nov. 20.—A dispatch to The Post-Intelligencer from Olympia says: Regarding the dispatch sent out from Tacoma stating that Governor Rogers was contemplating calling an extra session of the legislature to prevent the combination of the Great Northern and Northern Pacific interests in this state, the governor has been noncommittal. He refuses to discuss the question of an extra session at all and though he has received several telegrams from newspapers outside the state requesting his opinion on the railroad move, his replies have been very general in character. Men close in touch with the governor think an extra session extremely improbable.

MET A PECULIAR DEATH.

Indiana Boy Uses an Empty Nitroglycerin Can for a Drum.

Alexandria, Ind., Nov. 20.—Charlie Ott, a 13-year-old boy, was blown to atoms in a peculiar manner. He found a tin nitroglycerin can in the rear of his home, and trying it about his waist, he proceeded to beat a tattoo on the improvised drum. A terrible explosion, which shook the city, followed. Neighbors who rushed to the scene found the mangled remains of the little fellow strewn all over the yard. Both arms and legs of the boy were blown off and the front part of his head was torn away. The can was left on the spot by well-shooters, who supposed that not enough of the deadly explosive remained to be dangerous.

DEAD MAN'S FAMILY FINALLY LOCATED.

They Live in Minneapolis Where Deceased Worked for a Lumbering Concern.

WAS ON HIS WAY TO WOODS.

It is Not Probable That Coroner Reimestad will Hold An Inquest

Word was received in the city this morning by Dr. Reimestad, coroner of this county, from Chief of Police Ames, of Minneapolis, stating that the man who was killed yesterday morning this side of Jonesville, was a resident of Minneapolis, as was suspected by the authorities here, and that he has a wife and several small children living at 2017 Grand avenue north.

It was learned in Minneapolis that the man, whose name is Chas. Goshing, was in the employ of one of the large lumbering concerns of that city. He had been working in the mill during the summer and was sent out with a number of other men to work in the woods near Aitkin.

That none of his companions have showed up in quest of the man who must have been missed, ere this seems strange to the authorities in this city, and some have suggested foul play.

The man had \$1.40 on his person when found. Dr. Reimestad has not yet held an inquest over the remains, and it may not be necessary. There is no evidence in hand so far that would prove that the man was killed by other means than falling from the moving train, and so far as known, the man was thrown from the car unseen by anyone.

KATRINE.

Supt. Wilson visited the Bay Lake school last week.

Mr. Taylor has purchased a fine piano for his family.

Some one has said that "music bath charms to soothe the savage beast." There are five pianos, numerous organs and a phonograph, in our community, and still the wolves-do-howl.

Monday the 18th. The lake is covered with a sheen of ice. The earliest closing for many years.

The last tree in the dark grove of pine west of Kathrine, has fallen, and now we may look far over the level stretch, upon the good people of Esdon.

Commissioner Maghae made a short call at Kathrine one evening. He had with him three fine pigs for his farm.

Services were held in the new school house at Bay Lake, Sunday, Rev. Batdorf, of Aitkin county officiating. Mr. Batdorf is a young man of pleasing address.

The young people gave Miss Hockridge a surprise Saturday evening. Miss Hockridge is teaching the Kathrine school and expects to close her term Friday the 22nd.

Archie Dowine, of the town of Deerwood, claims to have lost two pigs under very suspicious circumstances.

While the people of North Bay are discussing what disposition to make of the log school house, we would suggest that it be used to build a shed. The roof is practically new, and the pastor and those that drive from a distance oftines would feel grateful for such accommodation.

One evening last week as Mrs. Elmore was driving their cattle home she found that some animal was following her, which she thought was a bear. She kept among the cattle and called for help. Her call was heard at home and Mr. Elmore and his step-father, Mr. Colman, found the tracks were those of a large wolf.

ECHO.

Dr. J. H. Kinney of Royalton, died at 11:15 o'clock Wednesday night. Dr. Kinney was taken ill about three weeks ago, but at first his malady was not thought to be serious. An abscess formed on his neck, and later, blood poisoning set in and the physicians in attendance realized that his death was a matter of but a short time.

IS NOT APPREHENSIVE

SECRETARY GAGE THINKS THAT GOLD SHIPMENTS WILL NOT LAST LONG.

THE MOVEMENT IS NATURAL

Demand for Money Is Quite General and United States Investors Wish to Take Advantage of Increased Interest—Considerable Withdrawals Will Raise Rates at Home and Make Foreign Shipments Unprofitable.

Washington, Nov. 20.—Treasury officials feel no apprehension whatever on account of the exportations of gold. Secretary Gage said that he would not make at this time any statement in regard to the matter but it is known that he regards the shipments as a natural movement in view of the quite general demand for money in Europe, and that he believes there is nothing in the situation to cause the least uneasiness. On the contrary, treasury officials say that the business affairs of Europe within the past few years have become so intimately connected with our own that a monetary stringency or disturbance of any character there should be deplored and, if possible, relieved for the common good. At this time there is an unusual demand for money in several European financial centers, and it is to be expected, it is said, that United States investors would take advantage of the increased interest rates and ship their funds to the best market. The officials do not believe, however, that the shipments will assume large proportions, especially as any considerable withdrawals would so increase rates at home as to make foreign shipments unprofitable.

TO EXPEDITE BUSINESS.

British Government's Scheme to Overcome Obstruction in Parliament.

London, Nov. 20.—It is understood that the British government intends to propose a reform of the procedure of parliament to overcome obstruction. The scheme will suggest that the house assemble at 2:30 p. m. instead of 4, that government business be taken first, that an adjournment from 7:30 until 9 be taken for dinner, that questions then be taken up and ordinary business be carried on until midnight.

Under the existing system questions form the first business of the house of commons and give rise to much obstruction.

It will also be proposed that estimates be first considered by a strong committee representing all sections of the house, in whose proceedings the duration of speeches would be limited, and that the existing cumbersome method of taking divisions be superseded by the self-registering vote machinery used in most continental legislatures. Under the new scheme disorderly members would be more sternly punished for the first offense and suspended for a month, with increasing punishment for renewed offenses, and offenders would be compelled to apologize before being permitted to return to parliament.

CITY COUNCIL ENJOINED.

Culmination of the Burlington-Northwestern Fight at Omaha.

Omaha, Neb., Nov. 20.—The fight between the Burlington and Northwestern roads for trackage into the wholesale district culminated in the city council being served with a temporary injunction order from Judge Slabaugh, in the district court, restraining it from passing an ordinance permitting the Northwestern to run its tracks on Eighth street.

The city council at a general committee meeting Monday decided that the Northwestern should be permitted to use the track it had already laid on Eighth Street and that it should also be allowed to put in a crossing at the intersection of the Burlington tracks, and an ordinance vacating part of the street for that purpose was to have been passed. The Burlington people at once went into the district court and secured a restraining order.

MAY ASK AMERICAN HELP.

Canadian Shippers Cannot Fill Contracts on Account of Storm.

Ottawa, Ont., Nov. 20.—The Canadian shippers have reported to the Dominion government that, owing to the exceptionally bad weather on the upper lakes during the past two weeks, every Canadian boat has lost at least one trip. This reduces their tonnage for grain from Port William to Canadian ports by at least 1,500,000 bushels and seriously hampers them in filling contracts for wheat which they have sold or contracted for with the railways, and every grain shipper will have to default on his contracts. They have therefore suggested giving American boats the privilege of carrying grain from Port William to the Canadian ports for the remainder of the season. The matter will come before the cabinet at once.

Bubonic Plague at Cape Town.

Norfolk, W. Va., Nov. 20.—The British steamer Monmouth, Captain Troop, which has arrived her direct from Cape Town, South Africa, reports the existence of over 800 cases of bubonic plague in the vicinity of Cape Town when she left that port. Up to the time she sailed some 380 deaths from the plague had occurred.

Railroads Reduce Rates.

Chicago, Nov. 20.—A reduction of \$4.50 will be made in the through passenger rate from St. Paul to New York via the standard lines east of Chicago. An agreement to this effect has been made by the general passenger agents of the Chicago-St. Paul lines.

A. E. MOBERG, STARTS THE GREATEST SALE YET.

ENTHUSIASTIC MEETINGS.

The Anti-Chamberlain Movement is Spreading in Germany.

Berlin, Nov. 20.—The anti-Chamberlain movement in Germany is spreading. In spite of the remonstrance issued officially by the Deutscher Kriegsbund, the Society of Veterans of Berlin held a large and enthusiastic meeting of this kind in which the utterances of Mr. Chamberlain at Edinburgh were heartily denounced.

Other soldiers' anti-Chamberlain meetings are to be held at Cologne, Mulheim, Brunswick, Bonn, Celle, etc., and students' meetings of a like character will be held at Bremen, Wurzburg, Leipzig, Halle and Munich, while popular meetings are announced in Beecham and Brunswick and other places.

Referring to these matters, The Post, speaking semi-officially, says the government sees no reason to identify itself with the vehement utterances at irresponsible meetings, or to take action against Mr. Chamberlain's accusations concerning the German soldiers, since the latter's words at Edinburgh were nothing more than the private statement of the British statesman.

But if the matter is broached in the reichstag, The Post continues, matters will assume an entirely different course.

In this event the government would find occasion to express itself belligerently.

ROGERS IS NONCOMMITTAL.

Washington's Governor Refuses to Discuss Extra Session Question.

Seattle, Wash., Nov. 20.—A dispatch to The Post-Intelligencer from Olympia says: Regarding the dispatch sent out from Tacoma stating that Governor Rogers was contemplating calling an extra session of the legislature to prevent the combination of the Great Northern and Northern Pacific interests in this state, the governor has been noncommittal. He refuses to discuss the question of an extra session at all and though he has received several telegrams from newspapers outside the state requesting his opinion on the railroad move, his replies have been very general in character. Men close in touch with the governor think an extra session extremely improbable.

MET A PECULIAR DEATH.

Indiana Boy Uses an Empty Nitroglycerin Can for a Drum.

Alexandria, Ind., Nov. 20.—Charlie Ott, a 13-year-old boy, was blown to atoms in a peculiar manner. He found a tin nitroglycerin can in the rear of his home, and tying it about his waist, he proceeded to beat a tattoo on the improvised drum. A terrible explosion, which shook the city, followed. Neighbors who rushed to the scene found the mangled remains of the little fellow strewn all over the yard. Both arms and legs of the boy were blown off and the front part of his head was torn away. The can was left on the spot by well-shooters, who supposed that not enough of the deadly explosive remained to be dangerous.

DEAD MAN'S FAMILY FINALLY LOCATED.

They Live in Minneapolis Where Deceased Worked for a Lumbering Concern.

WAS ON HIS WAY TO WOODS.

It is Not Probable That Coroner Reimstad will Hold An Inquest

Word was received in the city this morning by Dr. Reimstad, coroner of this county, from Chief of Police Ames, of Minneapolis, stating that the man who was killed yesterday morning this side of Jonesville, was a resident of Minneapolis, as was suspected by the authorities here, and that he has a wife and several small children living at 2017 Grand avenue north.

It was learned in Minneapolis that the man, whose name is Chas. Goshing, was in the employ of one of the large lumbering concerns of that city. He had been working in the mill during the summer and was sent out with a number of other men to work in the woods near Aitkin.

That none of his companions have showed up in quest of the man who must have been missed, ere this seems strange to the authorities in this city, and some have suggested foul play.

The man had \$1.40 on his person when found. Dr. Reimstad has not yet held an inquest over the remains, and it may not be necessary. There is no evidence in hand so far that would prove that the man was killed by other means than falling from the moving train, and so far as known, the man was thrown from the car unseen by anyone.

KATRINE.

Supt. Wilson visited the Bay Lake school last week.

Mr. Taylor has purchased a fine piano for his family.

Some one has said that "music bath charms to soothe the savage beast." There are five pianos, numerous organs and a phonograph, in our community, and still the wolves do howl.

Monday the 18th. The lake is covered with a sheen of ice. The earliest closing for many years.

The last tree in the dark grove of pine west of Kathrine, has fallen, and now we may look far over the level stretch, upon the good people of Esdon.

Commissioner Magham made a short call at Kathrine one evening. He had with him three fine pigs for his farm.

Services were held in the new school house at Bay Lake, Sunday, Rev. Batdorf, of Aitkin county officiating. Mr. Batdorf is a young man of pleasing address.

The young people gave Miss Hockridge a surprise Saturday evening. Miss Hockridge is teaching the Kathrine school and expects to close her term Friday the 22nd.

Archie Dowine, of the town of Deerwood, claims to have lost two pigs under very suspicious circumstances.

While the people of North Bay are discussing what disposition to make of the log school house, we would suggest that it be used to build a shed. The roof is practically new, and the pastor and those that drive from a distance oftentimes would feel grateful for such accommodation.

One evening last week as Mrs. Elmore was driving their cattle home she found that some animal was following her, which she thought was a bear. She kept among the cattle and called for help. Her call was heard at home and Mr. Elmore and his step-father, Mr. Colman, found the tracks were those of a large wolf.

IS NOT APPREHENSIVE

SECRETARY GAGE THINKS THAT GOLD SHIPMENTS WILL NOT LAST LONG.

THE MOVEMENT IS NATURAL

Demand for Money is Quite General and United States Investors Wish to Take Advantage of Increased Interest—Considerable Withdrawals Will Raise Rates at Home and Make Foreign Shipments Unprofitable.

Washington, Nov. 20.—Treasury officials feel no apprehension whatever on account of the exportations of gold. Secretary Gage said that he would not make at this time any statement in regard to the matter but it is known that he regards the shipments as a natural movement in view of the quite general demand for money in Europe, and that he believes there is nothing in the situation to cause the least uneasiness. On the contrary, treasury officials say that the business affairs of Europe within the past few years have become so intimately connected with our own that a monetary stringency or disturbance of any character there should be deplored and, if possible, relieved for the common good. At this time there is an unusual demand for money in several European financial centers, and it is to be expected, it is said, that United States investors would take advantage of the increased interest rates and ship their funds to the best market. The officials do not believe, however, that the shipments will assume large proportions, especially as any considerable withdrawals would so increase rates at home as to make foreign shipments unprofitable.

TO EXPEDITE BUSINESS.

British Government's Scheme to Overcome Obstruction in Parliament.

London, Nov. 20.—It is understood that the British government intends to propose a reform of the procedure of parliament to overcome obstruction. The scheme will suggest that the house assemble at 2:30 p. m. instead of 4, that government business be taken first, that an adjournment from 7:30 until 9 be taken for dinner, that questions then be taken up and ordinary business be carried on until midnight.

Under the existing system questions form the first business of the house of commons and give rise to much obstruction.

It will also be proposed that estimates be first considered by a strong committee representing all sections of the house, in whose proceedings the duration of speeches would be limited, and that the existing cumbersome method of taking divisions be superseded by the self-registering vote machinery used in most continental legislatures.

Under the new scheme disorderly members would be more sternly punished for the first offense and suspended for a month, with increasing punishment for renewed offenses, and offenders would be compelled to apologize before being permitted to return to parliament.

CITY COUNCIL ENJOINED.

Culmination of the Burlington-Northwestern Fight at Omaha.

Omaha, Neb., Nov. 20.—The fight between the Burlington and Northwestern roads for trackage into the wholesale district culminated in the city council being served with a temporary injunction order from Judge Shlaugh, in the district court, restraining it from passing an ordinance permitting the Northwestern to run its tracks on Eighth street.

The city council at a general committee meeting Monday decided that the Northwestern should be permitted to use the track it had already laid on Eighth Street and that it should also be allowed to put in a crossing at the intersection of the Burlington tracks, and an ordinance vacating part of the street for that purpose was to have been passed. The Burlington people at once went into the district court and secured a restraining order.

MAY ASK AMERICAN HELP.

Canadian Shippers Cannot Fill Contracts on Account of Storm.

Ottawa, Ont., Nov. 20.—The Canadian shippers have reported to the Dominion government that, owing to the exceptionally bad weather on the upper lakes during the past two weeks, every Canadian boat has lost at least one trip. This reduces their tonnage for grain from 1,500,000 bushels and seriously hampers them in filling contracts for wheat which they have sold or contracted for with the railways, and every grain shipper will have to default on his contracts. They have therefore suggested giving American boats the privilege of carrying grain from Fort William to the Canadian ports for the remainder of the season. The matter will come before the cabinet at once.

Bubonic Plague at Cape Town.

Norfolk, W. Va., Nov. 20.—The British steamer Monmouth, Captain Troop, which has arrived her direct from Cape Town, South Africa, reports the existence of over 800 cases of bubonic plague in the vicinity of Cape Town when she left that port. Up to the time she sailed some 350 deaths from the plague had occurred.

DEPUTY SAUNDERS NABS VIOLATORS.

Non-Residents Hunting in Cass
County for Big Game
Without Licenses.

THEIR STUFF IS CONFISCATED.

All are Wealthy Illinois Men—Are
Taken to Walker for
Hearing.

Deputy Game Warden Saunders last night made a big haul near Hackensack, in Cass county, and four prominent monied men of Illinois are in limbo and will have a chance to squirm while in the grasp of Minnesota's stringent game law.

The men who were arrested are T. C. Sager, G. W. Johnson, D. W. Burbank of Genoa, Ill., and E. Well, of Chicago. It seems that these men had the audacity to come in this state to hunt for big game without procuring a non-resident license. The deputy game warden was put on their trail and they were located near Hackensack, where they had camped out for a fine hunting season.

Besides placing them under arrest charging them with violating the game law of the state, all their guns, dogs, tents and other truck were confiscated, amounting in all to nearly \$1,000.

Game Warden Saunders, it is understood, has positive evidence against the men. They have been taken to Walker, where the court is now in session, and they will be given a hearing.

Two Important Arrests.

Two important prisoners were confined at police headquarters Monday. They were John O'Brien and Frank Johnson, both of whom have a long list of aliases. They were in charge of a United States marshal who was taking the prisoners to Detroit, for appearance before the United States commissioner. They are being held for complication in the robbery of the postoffice at Millerville, Minn., although they are believed to have had a hand in a good many other jobs in the shape of burglaries and other kinds of robberies. Johnson was recognized by Chief Bowers as a man who has served a penitentiary sentence, for a robbery at Wild Rice, and he has also served a term for an offense for which he was sent from Wabpeton. During their stay in Fargo the men were questioned by Inspector Drake, of the postoffice department, and the police claim that they made a clean breast of the job at Millerville and also of jobs they have done before and subsequent to that. The prisoners were taken to Detroit this morning in company of Inspector Drake, W. G. Bunde, a United States marshal, and Sheriff Lundgren, of Douglas county, Minnesota.—Fargo Forum.

More Medals.

Ald. John Shaeffer today received a letter from Jas. McMullen, lately in charge of the Minnesota exhibit at the Buffalo show, in which the writer said he with one or two assistants were busy preparing the Minnesota stuff for shipment home. Two cars were already loaded. Mr. McMullen gives the cheering news that Minnesota keeps right on in its business of capturing medals. Four more gold medals, four silver medals and 12 bronze ones have been granted this state on its exhibit of vegetables and in fruit one gold, two silver and six bronze medals have been secured. Mr. Schager says that the fruit exhibit from Minnesota was such as to secure the medals from an indifferent judge, which was not the case at Buffalo.—St. Cloud Journal-Press.

School Report.

Several did not enroll until the middle of the month. Miss Grace Follett is the teacher.

A BOWLING CONTEST.

A Second Event Last Night Resulted In A
Victory for the Challeng-
ing Team.

There has been considerable interest of late in a bowling contest which is being waged between two teams composed of young men of the city. One team composed of Messrs. Cox, Heffner, Stout and Brown some time ago challenged a team composed of Messrs. F. B. Johnson, Dr. Frederick, A. McCarthy and D. McDonald. The first contest of three games was waged last week, the latter team coming out with flying colors. Last night, however, the tables were turned and the former team won by a good majority in the total score.

In the first game of the three played last night the team headed by F. B. Johnson won by a margin of 13, in the second game they won by a margin of 47, but in the last game the other team got 82 points ahead and thus won out in the total score.

PROPERTY OWNERS WELL SATISFIED

What it Cost the City to Pave and
Curb Seventh Street
South.

SAVING IN TAKING THIS WORK

Dr. Hemstead Thinks City Could
Afford to Go Ahead and
Improve Streets.

Some of the property owners on Seventh street have been figuring up the cost of the grading, paving and curbing of that street of late, and there is an agreeable surprise in the matter of expense, which reflects great credit not only on the street commissioner but on the street committee and the city.

Heretofore work of this kind has been let by contract, but this time the city council thought that they would experiment some along the paving line and Street Commissioner Weitzel was put in charge of the work. The result has been that the work has been done cheaper than it could possibly have been if taken by a contractor and it has also been done better.

It has been figured out that the cost for curbing, grading and paving this street with crushed rock was \$51.20 per 25 foot frontage to each property owner. This street, as is known, is very wide, there being 56 feet between the two curbs. This price also includes granite curbing.

Dr. Hemstead, president of the Northern Pacific bank, stated this morning that he had not heard a property holder on Seventh street make a kick on the grade of work that had been done and some even have not asked what the paving will cost them. He states that they will be surprised when told how cheap it has been done. The work on the street is perfect and it will last for many years.

To a representative of THE DISPATCH this morning Dr. Hemstead said: "Once the people know that the city can do this work, and do it well, for a cheaper price than can be done by a contractor, I do not think that there will be any objection on the part of the taxpayers of the city to going ahead and improving the streets of the city. This crushed rock can be used as a roadway and the city could go right ahead at a very nominal cost to make an improvement in this line that would be lasting."

Application Is Withdrawn.

Topeka, Kan., Nov. 16.—The application to the governor for the parole of Emmett Dalton, the last of the Dalton gang of bank robbers, and who is serving a life term for murder committed during the raid on Coffeyville, Kan., in 1892, has been withdrawn, the popular protest against the parole being so overwhelming that Dalton's friends considered it best not to wait for an adverse decision.

President Cooper of the State Fair Looks
Over Past Experience with Con-
siderable Pleasure.

President John Cooper, of St. Cloud, of the state agricultural society, will start about December 1 for his winter home in southern California and will not be present at the annual meeting of the society to be held at St. Paul the second Tuesday in January, says the Journal-Press. Mr. Cooper is preparing his report to the annual meeting of the association and has just received from Treasurer Frank J. Wilcox, of Owatonna, his report of the year's business, and which will be included in the president's annual report.

The business of the Minnesota state fair for 1901 is certainly a record breaker in every respect, in all the departments exceeding its predecessors. The total receipts of the year are found to have been \$131,234.27 with disbursements of \$86,684.43, leaving a balance in the association's treasury of \$44,549.84. The receipts for admissions were \$87,072.15, which is probably a greater amount than was "taken in" at the gates at any other fair ever held in the west, or the east for that matter. The association has made valuable improvements on its grounds at Hamline during the summer and some \$5,000 has been expended in improvements since the close of the fair.

Mr. Cooper has been president of the association for four years past. When he became president, the Agricultural society had \$5,000 in its treasury and the success of its fairs was largely a matter of speculation. In the four years of his incumbency of the office every fair has been more than self sustaining and the society has expended in permanent improvements at the fair grounds approximately \$50,000 which with the splendid surplus now to its credit shows a business management that would succeed under almost any circumstances. As Mr. Cooper well says, the fair is not for the purpose of making money, but it is a mighty comfortable feeling to have a balance on the right side of the ledger.

Wants Them Imprisoned.

State Game Warden S. F. Fullerton favors life imprisonment for careless hunters as a means of diminishing the number of accidents during the deer hunting season.

A month before the deer season opened Mr. Fullerton sent circular letters to the auditors of the counties instructing them to refuse licenses to minors.

"We have secured some protection by shutting out the boys," he said yesterday, "but the law gives us no protection from the adult fool."

"The legislature should provide a board of examiners to determine the fitness of applicants to handle firearms, and require that no licenses be issued except upon the certificate of the board. The board might be a state body or localized by congressional districts. Such a board would help some, and its efforts should be supplemented with a penal enactment providing for the life imprisonment of hunters convicted of causing death by the careless handling of their guns."

"The Casino Girl," which is the attraction that has been booked for the opening of the Brainerd Opera House, Dec. 2, is a musical comedy which has been eminently successful both in New York City and in London, having been played for 400 performances in the former city and for 300 nights at the Shaftesbury Theatre, London. A very large company has been organized for the presentation of the piece, and the production will be the same, in every detail, as that which figured in the big international success achieved by the piece.

WERE HORRIBLY MUTILATED.

Father, Mother and Child Murdered
Near Los Angeles, Cal.

Los Angeles, Cal., Nov. 20.—The dead bodies of A. P. Wilcox, wife and 2-year-old son were found in their home at Downey, 12 miles from this city, during the day. All the bodies were horribly mutilated and the bloody condition of the premises indicated that the murderer or murderers had met with a fierce resistance. Wilcox and his family had been shot and then literally cut to pieces with a knife.

The crime was discovered when a neighbor called at the house and found the place evidently abandoned. On forcing open the door he found the dead bodies of the murdered family stretched out on the floor. The woman had been shot while carrying a plate from the stove to the table. The baby lay in the middle of the room, while the disemboweled body of the father was stretched near the door. There is no clue to the murderers.

DEPUTY SAUNDERS NABS VIOLATORS.

Non-Residents Hunting in Cass
County for Big Game
Without Licenses.

THEIR STUFF IS CONFISCATED.

All are Wealthy Illinois Men—Are
Taken to Walker for
Hearing.

Deputy Game Warden Saunders last night made a big haul near Hackensack, in Cass county, and four prominent monied men of Illinois are in limbo and will have a chance to squirm while in the grasp of Minnesota's stringent game law.

The men who were arrested are T. C. Sager, G. W. Johnson, D. W. Burbank of Genoa, Ill., and E. Well, of Chicago. It seems that these men had the audacity to come in this state to hunt for big game without procuring a non-resident license. The deputy game warden was put on their trail and they were located near Hackensack, where they had camped out for a fine hunting season.

Besides placing them under arrest charging them with violating the game law of the state, all their guns, dogs, tents and other truck were confiscated, amounting in all to nearly \$1,000.

Game Warden Saunders, it is understood, has positive evidence against the men. They have been taken to Walker, where the court is now in session, and they will be given a hearing.

Two Important Arrests.

Two important prisoners were confined at police headquarters Monday. They were John O'Brien and Frank Johnson, both of whom have a long list of aliases. They were in charge of a United States marshal who was taking the prisoners to Detroit, for appearance before the United States commissioner. They are being held for complicity in the robbery of the postoffice at Millerville, Minn., although they are believed to have had a hand in a good many other jobs in the shape of burglaries and other kinds of robberies. Johnson was recognized by Chief Bowers as a man who has served a penitentiary sentence, for a robbery at Wild Rice, and he has also served a term for an offense for which he was sent from Wabpeton. During their stay in Fargo the men were questioned by Inspector Drake, of the postoffice department, and the police claim that they made a clean breast of the job at Millerville and also of jobs they have done before and subsequent to that. The prisoners were taken to Detroit this morning in company of Inspector Drake, W. G. Bunde, a United States marshal, and Sheriff Lundgren, of Douglas county, Minnesota.—Fargo Forum.

More Medals.

Ald. John Shaeffer today received a letter from Jas. McMullen, lately in charge of the Minnesota exhibit at the Buffalo show, in which the writer said he with one or two assistants were busy preparing the Minnesota stuff for shipment home. Two cars were already loaded. Mr. McMullen gives the cheering news that Minnesota keeps right on in its business of capturing medals. Four more gold medals, four silver medals and 12 bronze ones have been granted this state on its exhibit of vegetables and in fruit one gold, two silver and six bronze medals have been secured. Mr. Schager says that the fruit exhibit from Minnesota was such as to secure the medals from an indifferent judge, which was not the case at Buffalo.—St. Cloud Journal-Press.

School Report.

Several did not enroll until the middle of the month. Miss Grace Follett is the teacher.

A BOWLING CONTEST.

A Second Event Last Night Resulted In A
Victory for the Challeng-
ing Team.

There has been considerable interest of late in a bowling contest which is being waged between two teams composed of young men of the city. One team composed of Messrs. Cox, Heffner, Stout and Brown some time ago challenged a team composed of Messrs. F. B. Johnson, Dr. Frederick, A. McCarthy and D. McDonald. The first contest of three games was waged last week, the latter team coming out with flying colors. Last night, however, the tables were turned and the former team won by a good majority in the total score.

In the first game of the three played last night the team headed by F. B. Johnson won by a margin of 13, in the second game they won by a margin of 47, but in the last game the other team got 82 points ahead and thus won out in the total score.

PROPERTY OWNERS WELL SATISFIED

What it Cost the City to Pave and
Curb Seventh Street
South.

SAVING IN TAKING THIS WORK

Dr. Hemstead Thinks City Could
Afford to Go Ahead and
Improve Streets.

Some of the property owners on Seventh street have been figuring up the cost of the grading, paving and curbing of that street of late, and there is an agreeable surprise in the matter of expense, which reflects great credit not only on the street commissioner but on the street committee and the city.

Heretofore work of this kind has been let by contract, but this time the city council thought that they would experiment some along the paving line and Street Commissioner Weitzel was put in charge of the work. The result has been that the work has been done cheaper than it could possibly have been if taken by a contractor and it has also been done better.

It has been figured out that the cost for curbing, grading and paving this street with crushed rock was \$51.20 per 25 foot frontage to each property owner. This street, as is known, is very wide, there being 56 feet between the two curbs. This price also includes granite curbing.

Dr. Hemstead, president of the Northern Pacific bank, stated this morning that he had not heard a property holder on Seventh street make a kick on the grade of work that had been done and some even have not asked what the paving will cost them. He states that they will be surprised when told how cheap it has been done. The work on the street is perfect and it will last for many years.

To a representative of THE DISPATCH this morning Dr. Hemstead said: "Once the people know that the city can do this work, and do it well, for a cheaper price than can be done by a contractor, I do not think that there will be any objection on the part of the taxpayers of the city to going ahead and improving the streets of the city. This crushed rock can be used as a roadway and the city could go right ahead at a very nominal cost to make an improvement in this line that would be lasting."

This gun will be the largest ever made in the world. It is a breech-loader and the breech will be so constructed that a child can open and fire it. It will shoot a distance of 21 miles, but in order to do so the shot will assume an altitude as high as Pike's Peak. After the hook has been placed in it the gun is to have another jacket shrunk on it. Military men the world over are very much interested in the mechanism of this gun, as it will be an innovation for coast defense.

BANDITS ARE LOCATED

DICKINSON ASKS BULGARIA TO SEND TROOPS TO LIBERATE MISS STONE.

HAS ONLY EIGHT GUARDS

Some of the Missionary's Custodians Known to Sympathize With Her. Impossible to Come to Terms With the Brigands—Believed They Will Not Harm Their Captives Even if Soldiers Are Sent After Them.

Sofia, Nov. 20.—It is reported that Mr. Dickinson, the United States diplomatic agent here, has informed the government of Bulgaria that the abductors of Miss Ellen M. Stone and Mme. Tsilka, with their captives, are concealed in a defile of the Belleritza mountains, near Smotch, district of Dubnitsa, and has requested that troops be sent to surround the place and liberate the captives. Both Mr. Dickinson and the Bulgarian foreign office decline to confirm or deny this report. Nevertheless it is believed that Mr. Dickinson, persuaded of the impossibility of coming to terms with the brigands and relying upon his belief that they will not harm their captives if the troops are employed against them, has, after consulting with Washington, decided upon this move. Only eight bandits now guard Miss Stone and some of these are known to sympathize with her. About a fortnight ago Mr. Dickinson approached the foreign office and proposed this same plan, but its carrying out was abandoned because of the uncertainty of the location of the bandits.

PROPOSES JOINT ACTION.

McKinley Memorial Arch Association Declines to Suspend Operations.

Washington, Nov. 20.—The William McKinley National Memorial Arch association having received from the association for the erection of a McKinley monument at Canton, O., a request that it suspend its appeal to the public for contributions until the fund deemed necessary for the erection and maintenance of the Canton monument was secured, has determined that it would be impracticable to do so because the long, indefinite delay involved would mean the defeat of its purpose. It is stated, however, that in its desire to work in harmony with the association for the erection of the monument, believing that both memorials should be and could be erected by popular subscription, it has through its executive committee telegraphed to President Day and Vice President Hanna asking them to lay before the executive committee of the Canton monument association at its meeting in Cleveland on Thursday a proposition for joint action by the two commissions in the collection of funds and for their distribution on an agreed basis. The details of the proposition have been mailed in a letter written on behalf of the executive committee by Secretary Gage, treasurer of the William McKinley National Memorial Arch association. Prompt action is asked by the latter association in order that the national movement for a national McKinley memorial at the national capital may not be endangered by delay.

SKATE INTO AN AIR HOLE.

Three Young People at Duluth Find a Watery Grave.

Duluth, Nov. 20.—Miss Belle Woods, aged 25, Charles P. Vallancey, aged 26, and Stanley McLeod, aged 24, skated into an air hole in the St. Louis bay about 10 p. m., and were drowned. The three were friends and were skating together and did not see the hole until too late. Efforts were made to save them by the few persons in the vicinity, but the icy water cramped the unfortunates and they sank from sight within a few moments. Vallancey was a clerk in the Marshall Wells Hardware company, the young woman worked for the same concern, and McLeod was a clerk. It is said he and Miss Woods were engaged to be married. The bodies have not yet been recovered.

GOOD FOR ONE YEAR.

Tin Plate Workers Reject the Three-Year Clause in the Scale.

Pittsburg, Nov. 20.—The tin plate workers of the Amalgamated association have voted unanimously against the proposition of the late strike settlement to have their scale hold for three years. The officers of the American Tin Plate company in New York have been notified of the decision and the scale will therefore terminate within one year. The unanimous decision of the men of the recognized union mills to stand up with their brother members in the mills made non-union by the strike settlement. The tin plate workers are satisfied with the scale wage provided for and would be willing to have it continued for three years but are averse to the restrictions placed upon organization.

Murderer Found in Stable Loft.

Junction City, Kan., Nov. 20.—W. D. Buchanan of Troop D, Fourteenth cavalry, who killed Policeman White here was captured in the loft of a stable at Fort Riley. Assistant Marshal Cooper, who was mortally wounded by Buchanan at the time White was shot, is dying. There was some talk of lynching, but this has subsided. No reason for the murder is assigned.

Senator Sewall Seriously Ill.

Asheville, N. C., Nov. 20.—United States Senator W. C. Sewall of New Jersey is seriously ill at the Battery Park hotel. He came here for his health and at first grew better but is now much worse.

DRUNKENNESS IS CHARGED.

Meade Courtmartial in Session at the Brooklyn Navyyard.

New York, Nov. 20.—Colonel Robert L. Meade, the commanding officer of the marine barracks at the Brooklyn navyyard, faced a courtmartial during the day in the paymaster's building at the yard on charges preferred against him by Major C. H. Lauchheimer and Colonel L. F. Denny. The officer is accused of drunkenness while on duty and scandalous conduct. The president of the court is Rear Admiral George W. Sumner, and the judge advocate is Lieutenant A. P. Niblack.

Only two witnesses were examined, the first being Colonel L. F. Denny, one of the two complainants, who made a direct charge of intoxication and unbecoming conduct against Colonel Meade. In his testimony he said that on March 18, April 30 and July 18, of this year, while on a tour of inspection of the marine barracks, he, in company with Mr. William A. Boring of Boring & Tilton, architects, had come in contact with Colonel Meade, who, he said, was inebriated in an extent to drunkenness and that he was incapable of performing his duties as an officer. Architect Boring, the other witness, fully substantiated Colonel Denny's testimony.

EDUCATION IN PORTO RICO.

But Half of Those Desiring to Attend School Can Be Accommodated.

Philadelphia, Nov. 20.—Dr. M. G. Brumbaugh, commissioner of education from the United States to Porto Rico, has arrived in this city. He will leave for Washington at once for a conference with President Roosevelt. There is tremendous interest, he said, throughout Porto Rico in educational progress. He has about finished the work of school organization there. Fifteen months ago there were 790 schools and 23,000 scholars in the island, now there are 1,000 schools, with 50,000 children in attendance. These figures, Dr. Brumbaugh said, would immediately be increased to 100,000 if there were facilities to accommodate that number.

DESTINED FOR THE BOERS.

British Steamer Detained for Carrying Contraband of War.

London, Nov. 20.—The government has caused the detention of a British steamer which was fitted out, ostensibly for a pleasure cruise, at Victoria docks, on the ground that the vessel was laden with contraband of war destined for the Boers.

A searchlight fixed to the steamer's mast brought her under suspicion and it is said the subsequent search disclosed four field guns, quantities of raw material for the manufacture of powder, and that the vessel was fitted up inside to accommodate from 500 to 600 men. The captain of the steamer says his instructions from his employers directed him to call at Hamburg after leaving the Thames.

RUN ON THE WRONG BANK.

Misunderstanding Causes a Tacoma Institution to Close Its Doors.

Tacoma, Wash., Nov. 20.—The Metropolitan bank, P. V. Caesar, president, has closed its doors after standing against a run since Monday. The run began as the result of a misunderstanding, the small depositors believing that a suit filed Friday against the receiver of the Metropolitan Savings bank, which failed five days ago, had something to do with the present Metropolitan bank. About \$40,000 was withdrawn and the bank applied for a receiver. The Metropolitan's total deposits are about \$500,000. The failure is due entirely to the misunderstanding.

FINCH IS CRITICISED.

Said He Refused to Take Part in McKinley Services.

Washington, Nov. 20.—Mr. William E. Finch of La Crosse, Wis., United States minister to Uruguay, has been made the object of a complaint filed at the state department. It is alleged that he refused to take part in McKinley memorial exercises, held at Montevideo, at which Consul Swann presided. It appears that some jealousy developed between the consul and the minister, and the latter complained that the programme was not suitable and cut the affair.

Too Many Bosses in the Union.

Chicago, Nov. 20.—Because of the preponderance of "bosses," or employers, in the National Teamster's union, the Chicago branch of the union has withdrawn from the national body and taken out incorporation papers under the laws of the state of Illinois. About 3,500 teamsters have membership in the local union. It is claimed the secession movement from the national union will extend to all of Illinois and to every city of importance in the nation.

Quiet in Hopkins County, Ky.

Earlington, Ky., Nov. 20.—Quiet prevails in Hopkins county, and from all indications there will be no trouble for several days at least, especially if the troops stay here. The second death due to Sunday morning's battle occurred during the day. Morton Bush, who was shot in the right arm and lung, was the victim. The wounded union man, George Gouch, who is held a prisoner here, is still alive.

Washington, Nov. 20.—The annual report of the commissioner of internal revenue shows that the total receipts for the year ended June 30, 1901, were \$296,871,669, or \$11,555,561 in excess of the estimate, about the same amount in excess of the receipts for the year ended June 30, 1900, and \$33,000,000 in excess of the receipts for 1899.

The Ella Is Safe.

Halifax, N. S., Nov. 20.—The report generally circulated Sunday that the steamer Ella had been wrecked on the coast of Newfoundland proves to be incorrect. The report was first brought to Louisville, C. B., by a tugboat and was accepted without question. The Ella, however, is known to have passed out from Quebec on Sunday and is safe.

FORTIFYING HONOLULU.

Army Board Said to Have Agreed Upon a Comprehensive Scheme.

Honolulu, Nov. 14.—Colonel William F. Heuer, president of the army board, which has been selecting sites for fortifications on this island, leaves this afternoon on the steamship Alameda for San Francisco, taking with him the report adopted by the board, which he will take to Washington. The board is understood to have agreed upon a comprehensive scheme. For over 20 miles the south coast of the island will be fortified in such a manner as to make Honolulu practically impregnable. The members of the board explored the coast from Koko head to a point below Pearl harbor and some 12 stations for batteries have been settled upon. It is stated. There is also to be one central artillery station at some commanding point.

The other side of the island, it is thought, does not need much attention. The approach to Honolulu from any landing except on the south side between the points which were the limits of the board's surveys, are mountain passes, easily guarded and defended.

Chamber of Commerce Banquet.

New York, Nov. 20.—The 133rd annual banquet of the chamber of commerce was held at Delmonico's. Covers for 450 were laid in the main banquet room, which was simply, though effectively, decorated, chiefly with American flags. Secretary Hay, Governor Odell and Ambassador Choate responded to toasts.

Are Ejecting Squatters.

Guthrie, O. T., Nov. 20.—Revenue Inspector Guy P. Cobb is in the Creek Nation at the head of a strong force of Indian police, ejecting squatters and putting Creek citizens in possession of the allotments, as designated by the government. The squatters are angry and threatening, and in many instances force is necessary to eject them.

BANDITS ARE LOCATED

DICKINSON ASKS BULGARIA TO SEND TROOPS TO LIBERATE MISS STONE.

HAS ONLY EIGHT GUARDS

Some of the Missionary's Custodians Known to Sympathize With Her. Impossible to Come to Terms With the Brigands—Believed They Will Not Harm Their Captives Even if Soldiers Are Sent After Them.

Sofia, Nov. 20.—It is reported that Mr. Dickinson, the United States diplomatic agent here, has informed the government of Bulgaria that the abductors of Miss Ellen M. Stone and Mme. Tsilka, with their captives, are concealed in a defile of the Belleritz mountains, near Smotch, district of Dubnitsa, and has requested that troops be sent to surround the place and liberate the captives. Both Mr. Dickinson and the Bulgarian foreign office decline to confirm or deny this report. Nevertheless it is believed that Mr. Dickinson, persuaded of the impossibility of coming to terms with the brigands and relying upon his belief that they will not harm their captives if the troops are employed against them, has, after consulting with Washington, decided upon this move. Only eight bandits now guard Miss Stone and some of these are known to sympathize with her. About a fortnight ago Mr. Dickinson approached the foreign office and proposed this same plan, but its carrying out was abandoned because of the uncertainty of the location of the bandits.

Army Board Said to Have Agreed Upon a Comprehensive Scheme.

Honolulu, Nov. 14.—Colonel William F. Heuer, president of the army board, which has been selecting sites for fortifications on this island, leaves this afternoon on the steamship Alameda for San Francisco, taking with him the report adopted by the board, which he will take to Washington. The board is understood to have agreed upon a comprehensive scheme. For over 20 miles the south coast of the island will be fortified in such a manner as to make Honolulu practically impregnable. The members of the board explored the coast from Koko head to a point below Pearl harbor and some 12 stations for batteries have been settled upon. It is stated. There is also to be one central artillery station at some commanding point.

The other side of the island, it is thought, does not need much attention. The approach to Honolulu from any landing except on the south side between the points which were the limits of the board's surveys, are mountain passes, easily guarded and defended.
